### Professional Summary

Accomplished and self-motivated Front End Developer with more than 4+ years of comprehensive experience in designing, developing, testing, and deploying innovative software solutions and web applications. Proven track record of delivering robust software that enhances operational efficiency and user experience, meeting deadlines and ensuring client satisfaction.

### Work Experience

#### Frontend Developer

**Dec 2024 – Until Date**

##### lykemia Branding Concepts (Remote)

- Built and customized scalable, flexible, and user-friendly e-commerce platforms using Shopify and Shopify Plus, tailored to meet specific client needs and project requirements.
- Developed and managed Shopify stores by creating, customizing, and optimizing pages using Liquid, HTML5, CSS3, JavaScript, and jQuery, ensuring responsive and mobile-first design principles.
- Implemented third-party APIs (e.g. Google Maps, YouTube, Paystack)
- Integrated and customized third-party apps, Shopify APIs, and plugins to extend store functionality, including contact forms, product galleries, social media feeds, and e-commerce features.
- Organized and optimized website content, create content, including adding media (images, videos) and implementing SEO best practices to enhance search engine visibility and site performance

#### Lead Tutor Science and Engineering Club

**Oct 2023 – Oct 2024**

##### National Saturday Club (Manchester Metropolitan University – UK)

- Facilitate a series of interactive STEM workshop sessions, engaging young club members with hands-on projects that foster a deep understanding of Science and Engineering concepts.
- Engaging members in hands-on learning by constructing projects with Tinkercad and Scratch software, introducing them to the fundamentals of 3D modeling and software development.
- Overseeing the monitoring and evaluation of the club's performance, effectively utilizing available resources to optimize outcomes.
- Providing mentorship and guidance to Club co-facilitators, recruited through RISE, to assist in program delivery and empower them to conduct their own sessions with my support.

#### Software Developer

**Dec 2022 – Oct 2023**

##### Outsource Global Technologies Ltd. (Hybrid)

- Wrote clean, efficient, and maintainable code by utilizing appropriate programming languages and frameworks, ensuring high performance and compatibility.
- Successfully refactored existing code-bases from other programmers, addressing software issues with effective troubleshooting and solution implementation to enhance system reliability and functionality.
- Actively participated in daily online and weekly physical team meetings, engaging in brainstorming sessions and contributing to knowledge-sharing activities to foster a collaborative and innovative work environment.
- Collaborated closely with senior developers and team members to thoroughly understand project requirements, facilitating streamlined development processes, optimizing tooling, maintaining high-quality standards, and meeting critical deadlines.
- Tested and validated applications and software systems to ensure robust functionality and user satisfaction before and after deployment into production environments.

**Frontend Developer (Shopify)**  
**MilantiaWebs (Remote)**

**Dec 2022 – Sept. 2023**

- Collaborate closely with clients to understand their needs, target audience, define project scope, and collect essential information, ensuring clear alignment and understanding throughout the project lifecycle.
- Executed comprehensive testing across all stages of website or application development to identify and rectify bugs, inconsistencies, and performance issues, ensuring a high-quality final product.
- Fostered effective collaboration with designers and key stakeholders to guarantee a unified and successful implementation of the project, aligning all components with the strategic goals.
- Specialized in developing and customizing Shopify themes to reflect the client's brand identity and design preferences, utilizing HTML, CSS, JavaScript, and Shopify's Liquid templating language for precise and engaging results.
- Configured and optimized Shopify store settings to enhance functionality and user experience, ensuring a seamless integration of all features and capabilities.

**Front End Developer (Contract)**  
**Deep Technologies Ltd. (Abuja – Nigeria)**

**Sep 2022 – Dec 2022**

- Developed a robust FinTech loan and ecommerce application, leveraging frontend technologies to create a seamless user experience and efficient functionality.
- Designed and build custom landing pages from scratch.
- Skillfully refactored a complex code-base developed by another programmer, improving code quality, readability, and maintainability while optimizing performance.
- Actively participated in code reviews and provided constructive feedback to fellow developers, improving overall code quality and fostering a culture of continuous learning and improvement within the development team.
- Kept up with frontend industry trends, emerging technologies, and recommended innovative solutions to improve web development and maintain a competitive edge.

**Education**

**Manchester Metropolitan University (MSc)**

**2023 - 2024**

Advanced Computer Science

**University of Nigeria, Nsukka - Enugu State (BSc)**

**2014-2018**

Zoology and Environmental Biology

**Qwasar Silicon Valley (FullStack Development)**

**2023 - 2024**

Software Engineering

**FemCode Africa (Frontend Web Development)**

**2014 - 2018**

Software Engineering

**Skills & abilities**

- **Front-end:** React.js, Responsive Design, AJAX, Tailwind CSS, Bootstrap, Redux, TypeScript, JavaScript (ES6+), HTML, CSS, Responsive Development
- **Back-end:** RESTful API, Node.js, MySQL, mongodb
- **Version Control Systems:** Git, Github, Gitlab
- **Additional Skills:** Server-Side Rendering (Next.js), CMS (Shopify, WordPress), Search Engine Optimization, AWS, Usability testing, CI/CD
- **Soft skills:** Good analytical and problem-solving skills, good communication skills, focus on quality and delivery, and effective leadership and decision making. Adaptable and able to pivot between multiple, ongoing projects and manage time effectively. Ability to work independently with minimal supervision Strong communication skills and ability to capture business needs and translate into technical outcomes. Solid understanding of SEO and traffic generation strategies Hands-on, pragmatic approach with excellent problem-solving ability A good sense of design and branding strategy.

## **Volunteer History**

**Africa Technology Expo**  
**Spark Africa (Nigeria)**

**2023**

- Managed event registration and guest reception at Spark Africa Technology Expo 2023, handling attendee check-ins, ID tags, and promotional materials.
- Supported event planning and execution by contributing to strategic meetings and coordinating logistics with the team.

**Qwasar Silicon Valley (Guardian)**  
**Outsource Global Software Academy (Nigeria)**

**2022 – 2023**

- Provided technical support to fellow interns by troubleshooting coding issues and offering clear, actionable guidance to resolve challenges.
- Led daily stand-up meetings, contributed to quality assurance by reviewing code, giving constructive feedback, and recognizing team achievements.

## **Achievements**

**Creative Software Developer**  
**Rochdale Creativity and Careers Event (Manchester - UK)**

**2024 and 2025**

- Exhibited at the Creativity and Careers Event, engaging 500+ Year 9 pupils with hands-on software engineering demos and career insights to inspire interest in tech.
- Collaborated with 50+ professionals to provide mentorship, share qualifications and personal experiences, and help students make informed GCSE choices.
- Promoted the real-world relevance of creative subjects in tech through interactive presentations and practical applications.
