## PROFESSIONAL EXPERIENCE

### Lead Tutor - Science and Engineering Club

*National Saturday Club, Manchester Metropolitan University - UK*

Oct-2023 to Present

- Organize various STEM projects workshop sessions to introduce members to Science and Engineering
- Working on projects with Microbits to introduce members to Coding and STEM.
- Collaborating with existing university resources to integrate my program into a wider network of outreach and engagement opportunities for the club members.
- Building projects using Tinkercad and Scratch Software to introduce members to Software Development.
- Taking charge of monitoring and evaluating the club's performance, utilizing provided resources.
- Providing mentorship and guidance to Club co-facilitators, recruited through RISE, to assist in program delivery and empower them to conduct their own sessions with my support.
- Leading the club group on a trip to London for an annual showcase at Somerset House. This event serves as a platform to celebrate and showcase everyone's STEM work in a professional environment.
