Favour Chinaza Anajemba

FRONT END DEVELOPER

Manchester, UK | Phone: 07719130342 | Email: nazanajemba@gmail.com | LinkedIn: www.linkedin.com/in/favour-naza-anajemba/ | Website: www.nazanajemba.com

Professional Summary

Motivated and detail-oriented Front End Developer with 3+ years of hands-on experience building user-friendly and responsive web interfaces using HTML5, CSS3, JavaScript, jQuery, ReactJS and NextJS. Proven ability to collaborate remotely, maintain and enhance production systems, and troubleshoot UI bugs efficiently. Recently completed an MSc in Advanced Computer Science at Manchester Metropolitan University, with full UK work rights and availability for part-time remote work.

Work Experience

Frontend Developer (Remote)   Dec 2024 – Until Date
Iykemedia Branding Concepts

- Developed responsive and high-performance web applications using React.js, HTML5, CSS3, and JavaScript (ES6+).
- Built reusable UI components and implemented modern front-end practices to ensure maintainable and scalable codebase.
- Collaborated with designers and backend developers to translate designs and APIs into fully functional user interfaces.
- Applied performance optimization techniques including lazy loading and code splitting to enhance user experience.
- Conducted thorough testing and debugging to ensure cross-browser compatibility and mobile responsiveness.
- Participated in code reviews, sprint planning, and Agile ceremonies to ensure consistent delivery of quality software.
- Integrated RESTful APIs and implemented client-side logic for dynamic, real-time user experiences.

Front End Developer (Shopify – Remote)   Dec 2022 – Sept 2023
MilantiaWebs

- Built and customized scalable, flexible, and user-friendly e-commerce platforms using Shopify, tailored to meet specific client needs and project requirements.
- Developed and managed Shopify stores by creating, customizing, and optimizing pages using Liquid, HTML5, CSS3, JavaScript, and jQuery, ensuring responsive and mobile-first design principles.
- Integrated and customized third-party apps, Shopify APIs, and plugins to extend store functionality, including contact forms, product galleries, social media feeds, and e-commerce features.
- Organized and optimized website content, including adding media (images, videos) and implementing SEO best practices to enhance search engine visibility and site performance

Software Developer   Jan 2023 – Oct 2023
Outsource Global Technologies Ltd. (Hybrid)

- Wrote clean, maintainable front-end code, performed testing and debugging across browsers.
- Successfully refactored existing codebases from other programmers, addressing software issues with effective troubleshooting and solution implementation to enhance system reliability and functionality.
- Participated in collaborative sprint meetings and code reviews with distributed teams
- Collaborated closely with senior developers and team members to thoroughly understand project requirements, facilitating streamlined development processes, optimizing tooling, maintaining high-quality standards, and meeting critical deadlines.

- Tested and validated applications and software systems to ensure robust functionality and user satisfaction before and after deployment into production environments.

Front End Developer (Contract)   **Sep 2022 – Dec 2022**
Deep Technologies Ltd. (Abuja – Nigeria)

- Developed a robust FinTech loan and ecommerce application, leveraging frontend technologies to create a seamless user experience and efficient functionality.

- Built custom pages and collaborated closely with backend and design teams.

- Skillfully refactored in a complex codebase developed by another programmer, improving code quality, readability, and maintainability while optimizing performance.

- Actively participated in code reviews and provided constructive feedback to fellow developers, improving overall code quality and fostering a culture of continuous learning and improvement within the development team.

- Kept up with frontend industry trends, emerging technologies, and recommended innovative solutions to improve web development and maintain a competitive edge.

Additional Work Experience

Lead Tutor Science and Engineering Club   **Oct 2023 – Oct 2024**
National Saturday Club (Manchester Metropolitan University – UK)

- Facilitate a series of interactive STEM workshop sessions, engaging young club members with hands-on projects that foster a deep understanding of Science and Engineering concepts.
- Engaging members in hands-on learning by constructing projects with Tinkercad and Scratch software, introducing them to the fundamentals of 3D modeling and software development.
- Overseeing the monitoring and evaluation of the club's performance, effectively utilizing available resources to optimize outcomes.
- Providing mentorship and guidance to Club co-facilitators, recruited through RISE, to assist in program delivery and empower them to conduct their own sessions with my support.

Education

Manchester Metropolitan University (MSc)   **2023 - 2024**

Advanced Computer Science

University of Nigeria, Nsukka - Enugu State (BSc)   **2014-2018**

Zoology and Environmental Biology

Professional Certifications

Qwasar Silicon Valley (FullStack Development)   **2023 - 2024**

Software Engineering

FemCode Africa (Frontend Web Development)   **2017 - 2018**

Software Engineering

Skills & abilities

- **Front-end:** HTML, CSS, JavaScript (ES6+), jQuery, React.js, Responsive Design and Cross-browser Compatibility, Tailwind CSS, Bootstrap

- **Version Control Systems:** Git, Github, Gitlab

- **Additional Skills:** Server-Side Rendering (Next.js), CMS (Shopify, WordPress), Search Engine Optimization, Usability testing

- **Soft skills:** Good analytical and problem-solving skills, focus on quality and delivery. Adaptable and able to pivot between multiple, ongoing projects and manage time effectively. Ability to work independently with minimal supervision. Strong communicator, fast learner, self-driven, attention to detail, collaborative, design aware. Solid understanding of SEO and traffic generation strategies.

Volunteer History

Africa Technology Expo   **2023**
Spark Africa (Nigeria)

- Managed event registration and guest reception at Spark Africa Technology Expo 2023, handling attendee check-ins, ID tags, and promotional materials.

- Supported event planning and execution by contributing to strategic meetings and coordinating logistics with the team.

Qwasar Silicon Valley (Guardian)   **2022 – 2023**
Outsource Global Software Academy (Nigeria)

- Provided technical support to fellow interns by troubleshooting coding issues and offering clear, actionable guidance to resolve challenges.

- Led daily stand-up meetings, contributed to quality assurance by reviewing code, giving constructive feedback, and recognizing team achievements.

Achievements

Creative Software Developer   **2024 and 2025**
Rochdale Creativity and Careers Event (Manchester - UK)

- Exhibited at the Creativity and Careers Event, engaging 500+ Year 9 pupils with hands-on software engineering demos and career insights to inspire interest in tech.

- Collaborated with 50+ professionals to provide mentorship, share qualifications and personal experiences, and help students make informed GCSE choices.

- Promoted the real-world relevance of creative subjects in tech through interactive presentations and practical applications.
